TEST INDEX 1996-2011

# TRACTORS

AND FARM MACHINERY for farmers and contractors

Fifteen years of  
machinery tests in  
profi international

The new **7R** *Revolution*.

**JOHN DEERE**

TRACTOR OF THE YEAR 2019

### Dear Reader!

There's never a dull moment in farm machinery testing. We're now up to around 12,000 published profi international pages, featuring countless tractor tests, practical tests, driving impressions, used machinery reviews, technical and machinery management articles, as well as industry news from around the world. As with our previous ten-year index, though, this booklet only lists tractor tests (tt), long-term tests (lt), practical tests (pt), driving impressions (di) and used machinery (um) articles, because these are the items most commonly requested by readers when contacting us for equipment purchasing advice. Simply look up the machine/model in question, make a note of the issue date, and then rummage through your back copies to pick out

the appropriate magazine. Of course, not every reader will have a complete 15-year back-catalogue. So, where this is the case, why not take advantage of our online archive service? Head to [www.profi.com](http://www.profi.com), click through 'Machine Tests' and then on to 'Archive' - to access a comprehensive collection of past profi wisdom. There's a charge for non-subscriber downloads, but for profi subscribers it's absolutely free. While on the website, make sure you take advantage of the other services on offer such as the video library, buyers' guides and forums. As you'll no doubt now be aware, this little booklet acts as the passport to a continent of farm machinery knowledge. We hope you have a safe journey.

**The profi international team**

Fendt Efficient Technology

**Optimum profitability:  
we've got the formula**

**ET = £**

***Now to the power of 3***

Fendt Efficient Technology. Efficiency boosting features  
– embodied by the Fendt 800, 900 and now the new  
700 Vario Tractor – delivering the essence of profitability:  
*More, from less.*

FENDT **ET** EFFICIENT  
TECHNOLOGY

 **AGCO**  
Your Agriculture Company

**Leaders drive Fendt**

**FENDT**
